Hi Marc- I am writing about the very troubling resolution “Mass against hp” that is coming before the city council soon. Boycotting American companies doing business in Israel will not improve the Palestinian people’s situation; bringing people together to develop mutual respect and recognition will. This appears to be another “anti Israel” effort cloaked under the guise of other purposes.

I hope you and your fellow councilors will not support this resolution. Thank you for your kind attention to this matter.
Phyllis
